WINPACCS Customising

Advantages

- There is only one program version available, used by all organisations

- Help texts, documentation and standard training can be optimised for this program version

- Easy adaptation to your requirements using buttons; no cost-intensive programming needed

Cloud Application
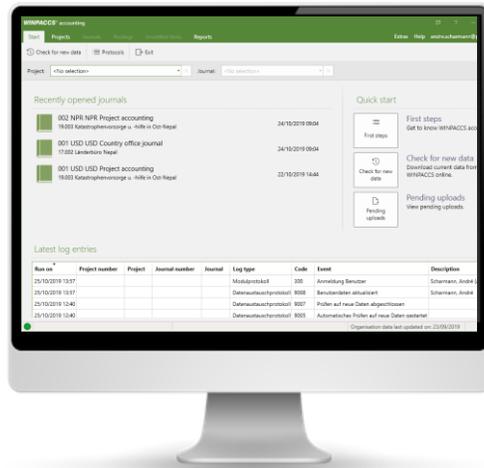

Accounting
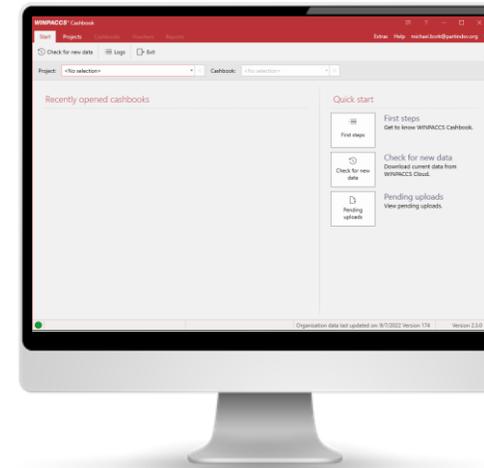

Cashbook

"Software as a Service"

- No investment costs in software or hardware

- Monthly, usage-based and easy to calculate costs

- Option of displaying costs for each project – can be integrated in client settlements

- Usage of the latest software

High data security

Future-proof
