Project Management and Financial Administration

- Managing International Projects and Multiple Currencies
- Trackable Financial Reporting and Project Budget Control
- Contribution Margin Calculation

Integration and Flexibility

- Seamless Integration with Corporate Accounting Systems
- Two-Way Data Exchange: Data flows both from WINPACCS to corporate accounting and from corporate accounting to WINPACCS
- Reduction of Duplicate Data Entry: Prevents redundant entries, saving time and minimizing errors
- Flexible approach to roles and rights
- Adaptability to requirements

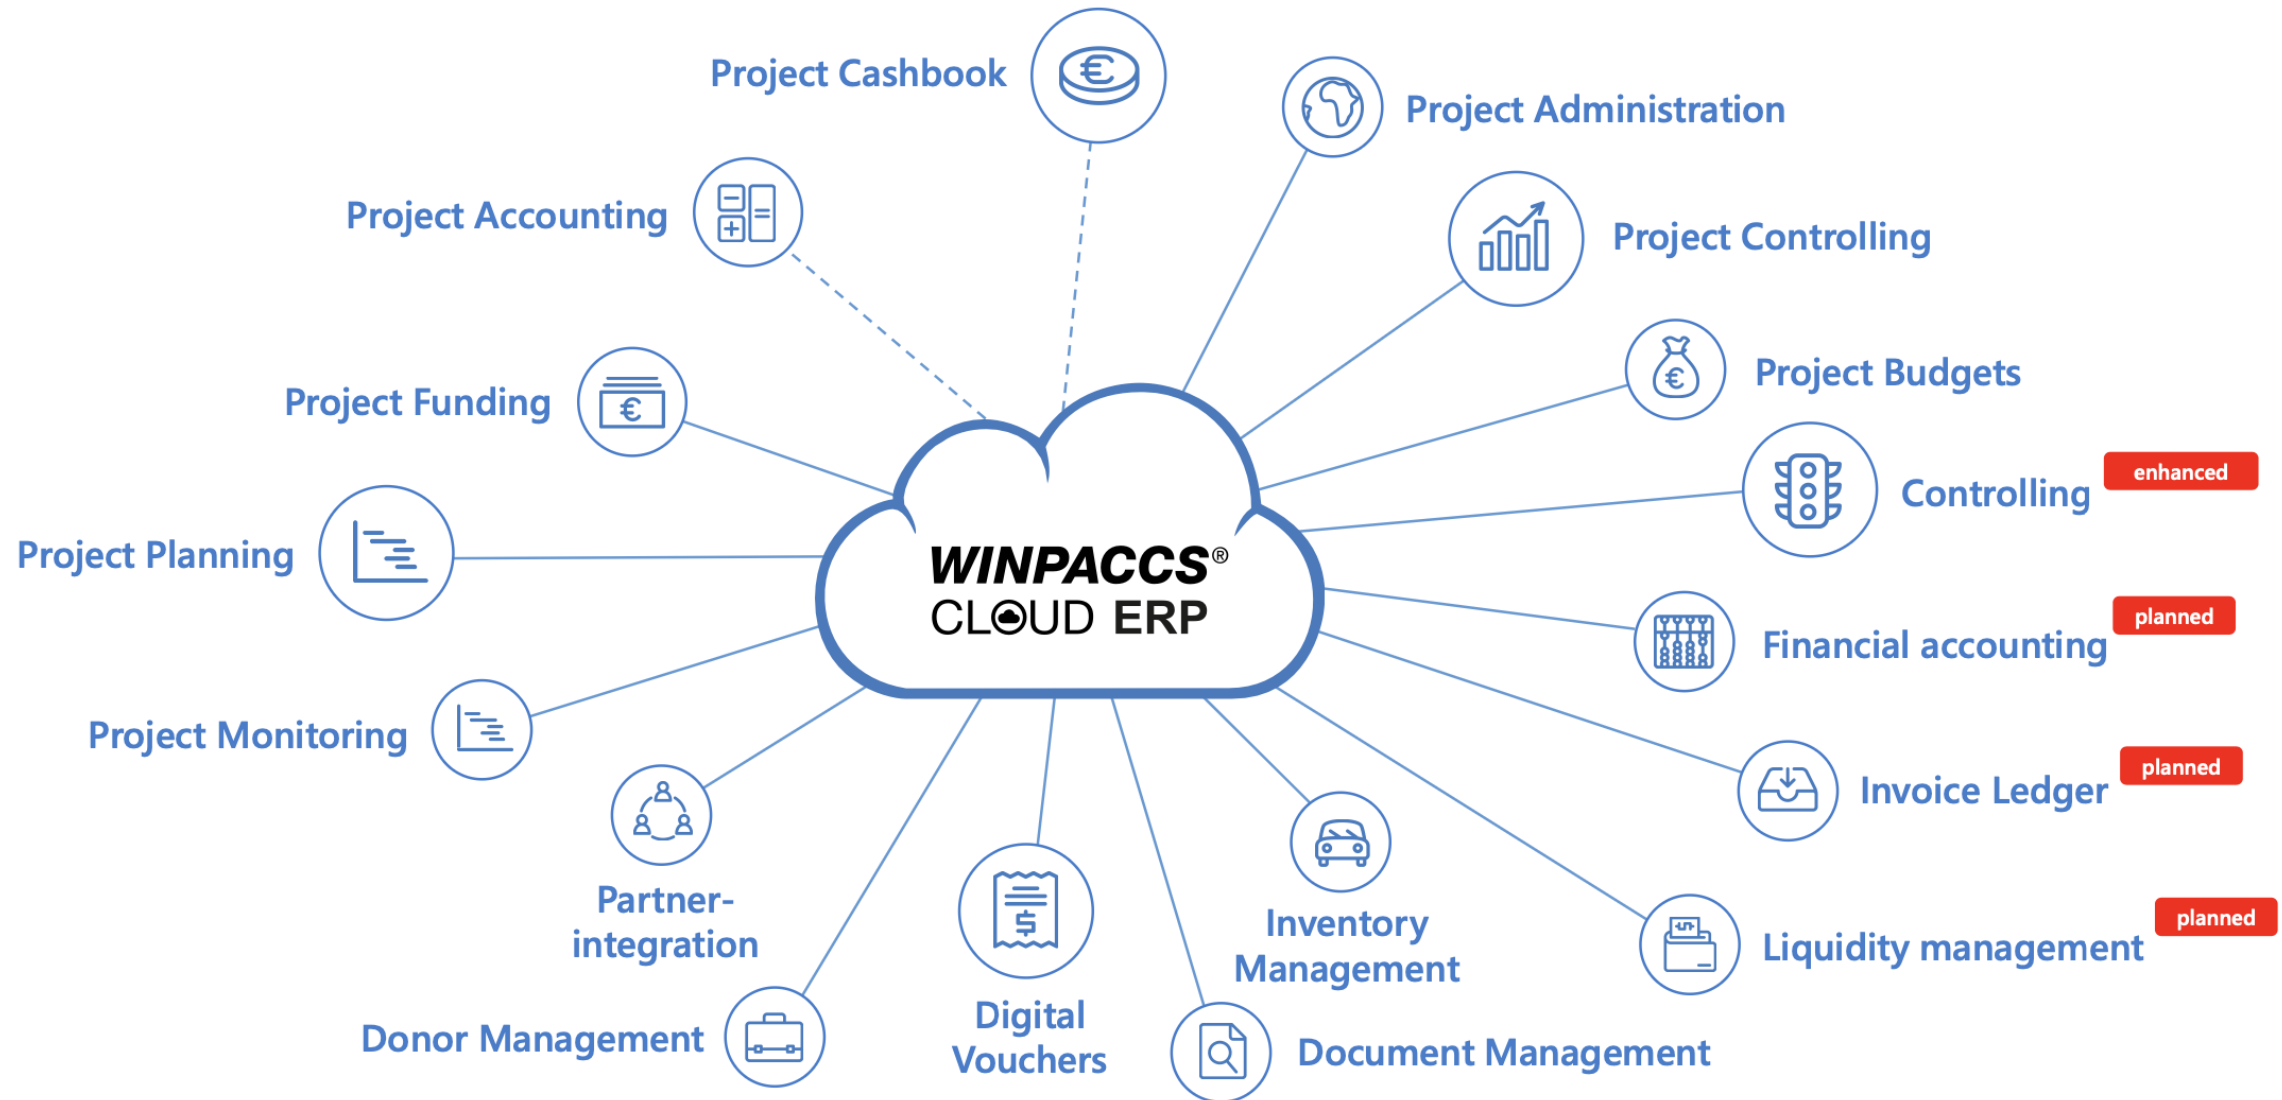

Live Demo: WINPACCS in Action

Compliance

- WINPACCS complies with the principles of orderly accounting
- Certification according to IDW PS 880
- What is this standard?

Summary and Outlook

- Key Advantages of WINPACCS for Consulting Companies
 - Worldwide access
 - User-friendly and uncomplicated
 - Fully integrated
- Future Developments: Balance Sheets, Income Statements, and Evolution into Full Accounting System (FIBU)
