What does it take to work successfully with a software in the long run?

What does it take to work successfully with a software in the long run?

1 Software that fits your needs

What does it take to work successfully with a software in the long run?

1. Software that fits your needs
2. A successful implementation

What does it take to work successfully with a software in the long run?

1. Software that fits your needs
2. A successful implementation
3. Sustaining knowledge within your organisation

What does it take to work successfully with a software in the long run?

1. Software that fits your needs
2. A successful implementation
3. Sustaining knowledge within your organisation
4. Software that evolves with your changing needs

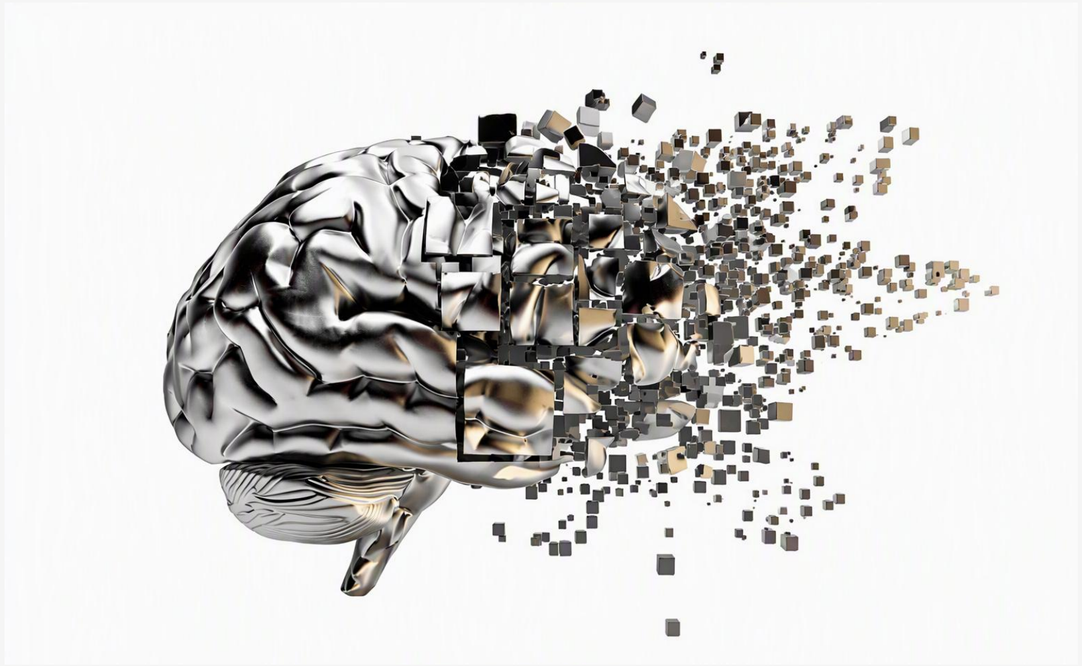

What does it take to work successfully with a software in the long run?

1 Software that fits your needs

2 A successful implementation

3 Sustaining knowledge within your organisation → How can you build and sustain your WINPACCS know-how within your organisation?

4 Software that evolves with your changing needs → How can you use your know-how to help drive innovation in WINPACCS

Build Your WINPACCS Expertise

How can you build and sustain your WINPACCS know-how within your organisation?

How can you build and sustain your WINPACCS know-how within your organisation?

What is the WINPACCS Academy?

- A learning platform with a set of different learning formats
  (webinars, on-site trainings, online help, …)
- Enables users to help themselves (reduces need of support)
- Tailored to the needs of your users
  (based on the WINPACCS user rights & roles concept)
- Easily accessible

We aim to continuously improve all these aspects

WINPACCS Academy

Webinars

Seminars

- WINPACCS Seminar Core Functions
- WINPACCS Seminar The New WINPACCS Financial Accounting

WINPACCS Online Help

Further Resources

- Youtube Channel
- Online Courses
- White Papers

Webinars

- In WINPACCS webinars, you will get to know individual functions of WINPACCS in short online meetings.
- Experienced consultants will show you how to integrate and use new or improved features into your workflows.

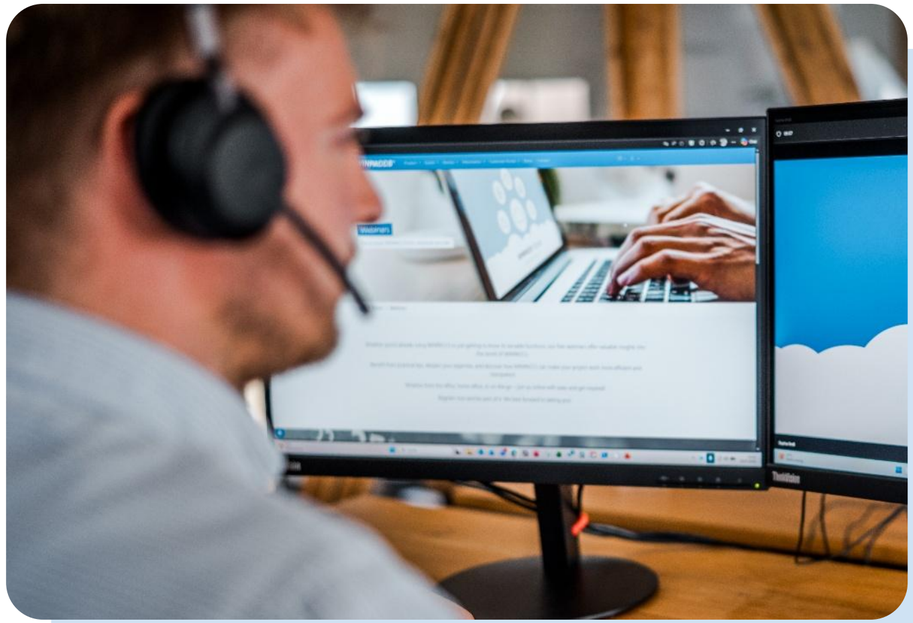

Webinars

- Every functional area in WINPACCS is covered in specific sessions
- Practical learning with WINPACCS trainers
- Online for your convenience
- Focus on concrete use cases
- For beginners and experienced users
- Compact in 1 to 2 hours
- Join for free

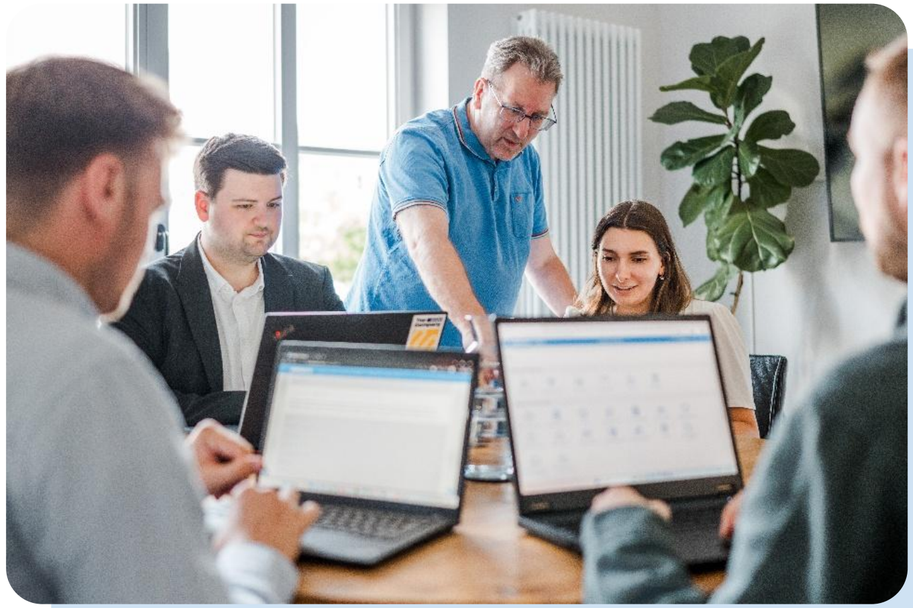

Discover WINPACCS

- Ideal introduction to the world of WINPACCS
- Overview of features and application
- Free of charge & without obligation
- Specially designed for interested parties
- Participate conveniently online

Seminars

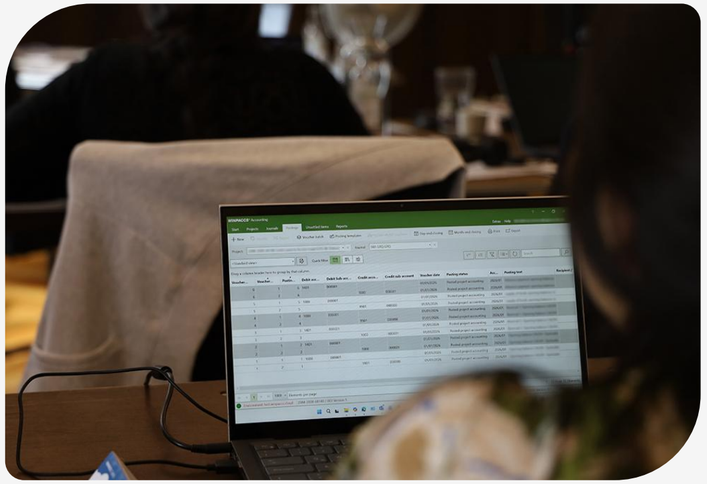

- 4-5 day training format
- For beginners and advanced users
- Small groups & intensive exchange
- Build up in-depth knowledge of the core functions of WINPACCS
- Practical exercises and direct exchange with WINPACCS trainers
- WINPACCS Seminar “Core Functions” and “Financial Accounting”

Impressions from this year's seminars

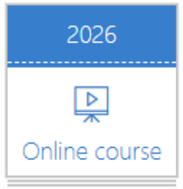

WINPACCS Online courses

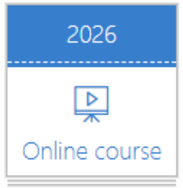

The online course is divided into clear units on a learning platform. We provide users with explanatory videos and practical exercises for the individual units.

The exercises are provided in a test environment on a terminal server and offer the possibility to implement what has been learned directly in the application.

WINPACCS for Project accountants

Online course | English / French | approx. 10 hours
Places available
Online event | Registration through coordinator

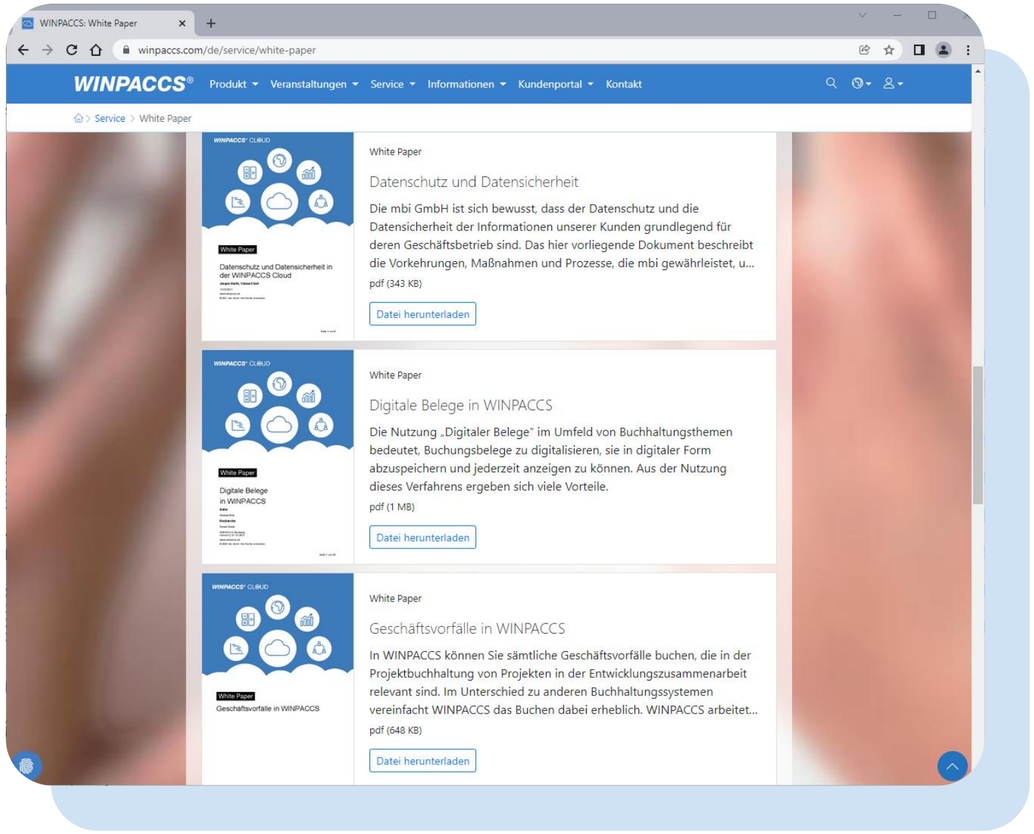

WINPACCS for Project cashiers

Online course | English / French | approx. 4 hours
Places available
Online event | Registration through coordinator

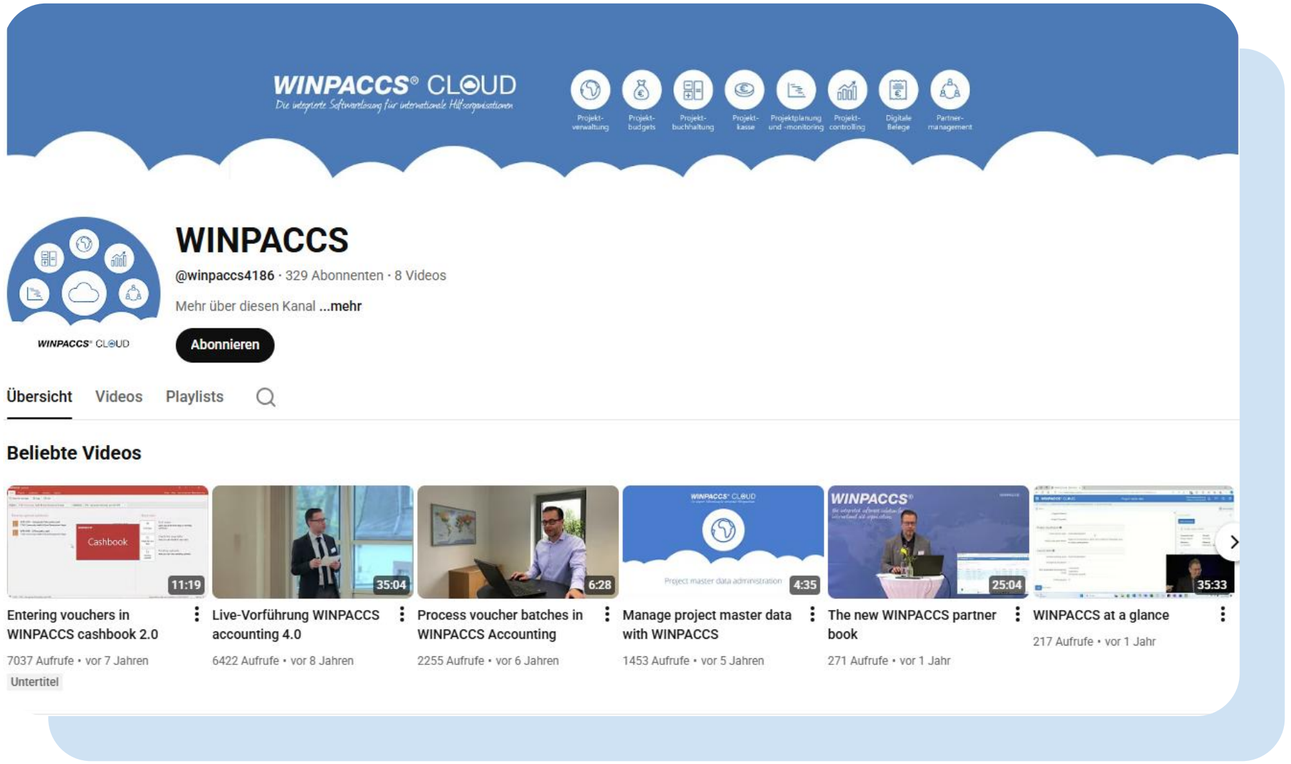

WINPACCS White Paper

- Take advantage of the competence and know-how of our WINPACCS consultants to build up background knowledge.
- Browse through the growing collection of white papers and discover the topics that interest you.

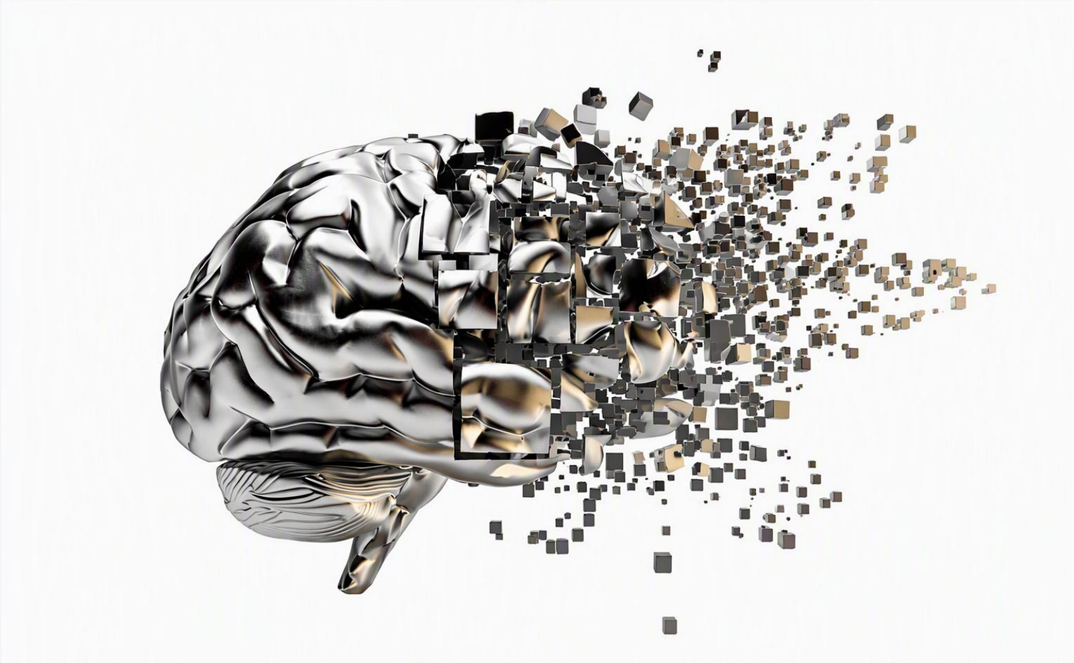

WINPACCS Youtube Channel

- Get to know WINPACCS with our videos on individual WINPACCS topics.

WINPACCS Online Help

- Integrated into WINPACCS
- Accessible through your browser
- Relevant to your current functional area
- AI-ready
- Available in English, German, French and Spanish
- Designed for self-service

Help Drive Innovation

How can you use your know-how to actively shape WINPACCS?

Introduction to the principles of the further development of WINPACCS

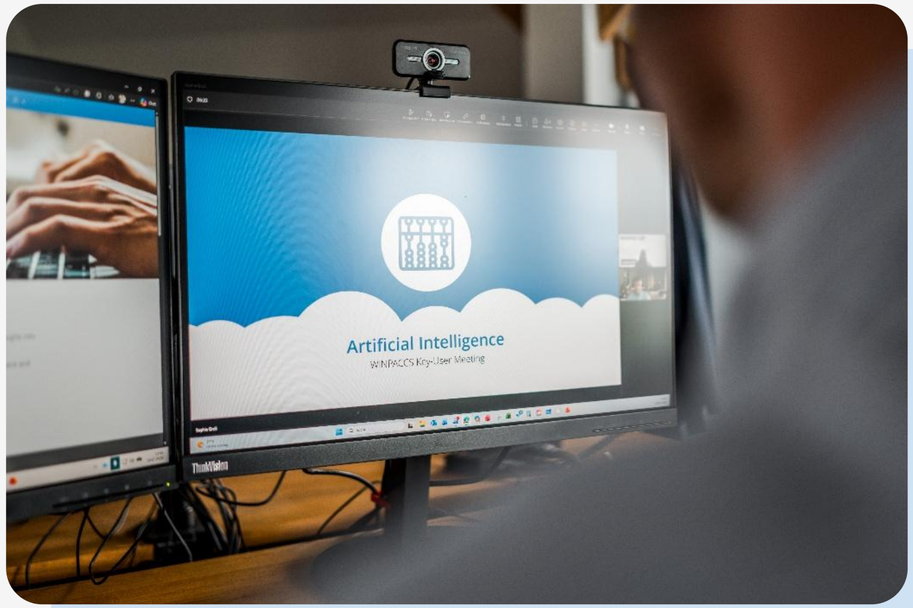

- Customer-Driven Software
- Actively shaping the future of WINPACCS
- You have the practical know-how – you know what you need in your daily work
- We bring together ideas and requirements from different customers
- We develop solutions that create value for as many WINPACCS customers as possible

Key User Meeting

For every part of the software our customers have the possibilities to assign experts – so called key users.

We invite these key users to online meetings regularly, to:

1. collect their requirements for their area of expertise
2. present and discuss our ideas and concepts
3. present and discuss the developed features

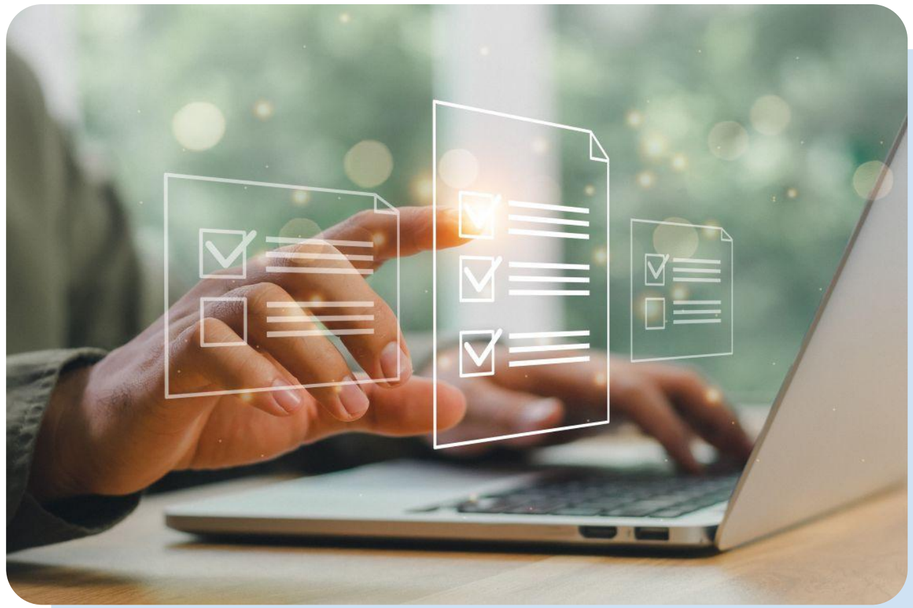

Current Key User Topics

- Project Administration
- Inventory Management
- User Administration
- Controlling
- Digital Vouchers
- Document Management
- Financial Accounting
- Funding
- Artificial Intelligence
- Liquidity Management
- Partner Accounting
- Interfaces
- Partner Management
- Programme Management
- Project Accounting
- Project Cashbook
- Project Planning and Monitoring

Find out more on our website: [WINPACCS: Key-User Meeting]

User Survey

- Annual survey for all WINPACCS users
- Structured feedback based on user roles and functional areas
- Learn what works well and where users see potential for improvement
- Used to systematically analyse feedback from everyday practice
- Insights collected are used to continuously improve WINPACCS and align it with users' needs

User Day

- Annual event, on-site and via livestream
- Aimed to bring the WINPACCS community together:
  - Discover what is new and what is coming next.
  - Discuss ideas, experiences and practical approaches.
  - Connect with other WINPACCS users and our team.

Your questions?

Thank you for your attention!

We look forward to welcoming you to our academy events in Wetzlar or online soon!
